

PRODUCT DESCRIPTION

The cover has a matt black surface that turns white when the light is turned on, the line of light at 160LED/m. The cover material is PC (polycarbonate) with increased resistance to UV radiation. The best visual effect is obtained with profiles that are black inside. The cover creates a line of light in profiles minimal deep 11 mm at 160LED/1m.

- They blend in with dark lighting fixtures and dark surfaces of ceilings or walls
- A surprising light effect when the light is switched on
